Subject: Land rezoning - Update following meeting with Minister

Dear local constituents,

To those who have contacted me regarding the zoning of land in the Oxford Falls and Belrose North areas, I can provide an update.

Today I met with the Minister for Planning (Rob Stokes) together with the Member for Wakehurst (Brad Hazzard) to represent your views and discuss the E3 issue.

The Minister was sympathetic to the views put forward and will seek further advice, which may take some time.

No further action should be taken until after that advice is received. I will contact you again when further information becomes available.

Yours sincerely,
Jonathan
